### **San Luis Rey River Park Master Plan**

On September 24th, the County Board of Supervisors approved the San Luis Rey River Park Master Plan and certified the river park's Programmatic Environmental Impact Report. The current plan for the river park provides park users active and passive recreational opportunities, around 20 miles of multi-use trails and a large portion of plan's Core Study Area designated as preserve land. With the Master Plan approval, the focus for DPR turns to acquiring additional land for the river park followed by specific active and passive recreational site development.

CALTRANS' SR-76 "middle" project EIS/EIR document is scheduled for certification sometime later this year. This certification will enable CALTRANS to proceed with its plan for the realignment of SR-76 from Oceanside to Mission Road. DPR and CALTRANS continue to meet on issues important to both agencies projects throughout the San Luis Rey river corridor. This continued coordination is intended to minimize impacts to either agency's project plan or schedule.

Thanks for your continued interest and support of this project. The Master Plan document is available using the following link; <http://www.sdcounty.ca.gov/parks/projects.html#slrdraft>

And if you have questions regarding the San Luis Rey River Park Master Plan project, please call Mark Massen at 858-966-1351 or by email at [mark.massen@sdcounty.ca.gov](mailto:mark.massen@sdcounty.ca.gov).
